More than Just a Pretty Face:
Efficiency Gets Intelligent

2017 SEEA & AESP Southeast Conference

E is for Easy.

Nest Thermostat^E

Up in the morning, down at night. With a simple schedule, the Nest Thermostat E makes it easy to save energy.

nest

E is for Energy savings.

Nest Thermostat^E

With proven energy-saving features, the Nest Thermostat E can pay for itself in less than two years.

Independent studies show that Nest saved energy at the rate of 10% to 12% on heating and 15% on cooling. Based on typical energy consumption, a Nest Thermostat E can pay for itself in less than two years. Actual results may vary. ©2014 Nest Labs. All rights reserved.

E is for Everyone.

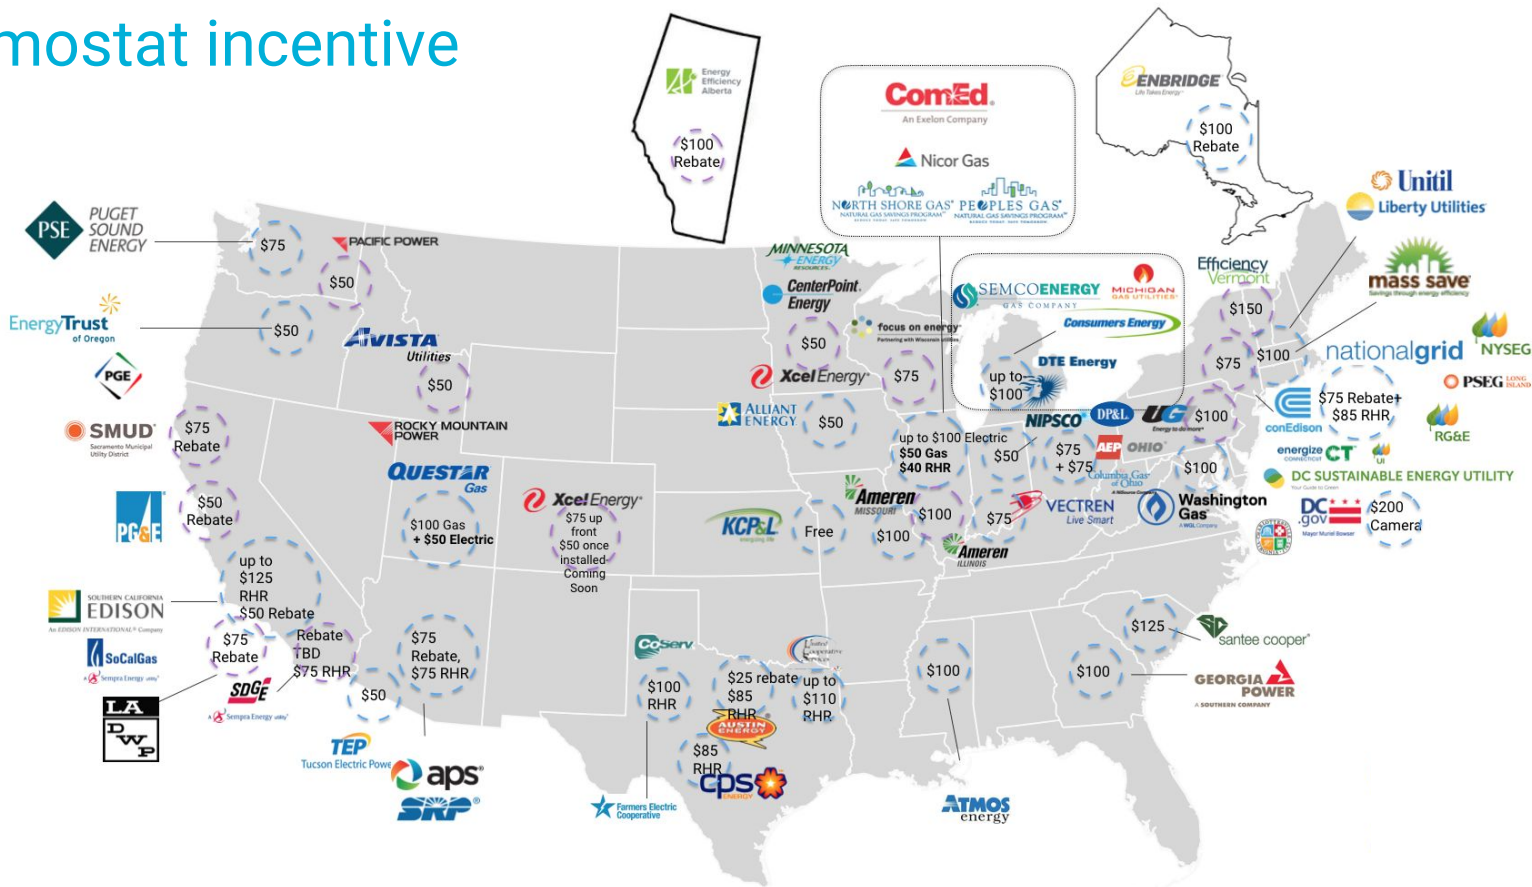

Nest Thermostat^E

The easy-to-use, energy-saving, control-it-from-anywhere Nest Thermostat E. It's for everyone.

nest

Today more than half of North American homes can get a smart thermostat incentive

Utilities included here have live offer programs for which Nest is eligible. These include both BYOT Demand Response and/or Energy Efficiency rebate offerings.

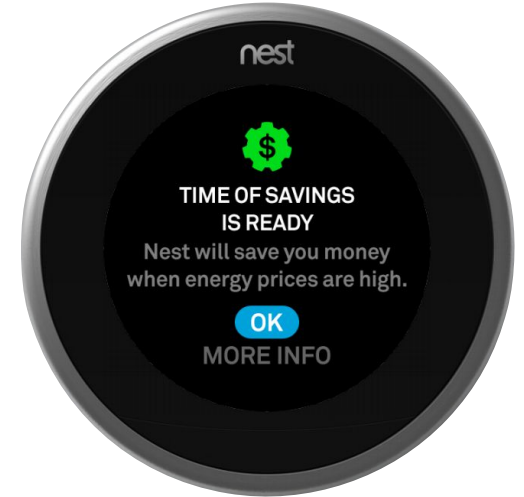

And the smart thermostat has become a program platform

Energy Efficiency
Save kWh & therms

Demand Response
Shift kW

Time of Use
Shift kW to align DSM & Rates
